PROFILE

A BSc (Hons) Games Programming student who has a strong passion for computer graphics. The passion for graphics was discovered when working with DirectX11 and making a ps1 styled witch forest. I am quick at learning new concepts, great at adapting to situations, completing given tasks on time and given it my all.

EDUCATION

University of Staffordshire, Stoke-On-Trent 2023 - Current
Computer Games Programming BSc (Hons)

Currently studding at Staffordshire University and improving on my problem-solving skills within group and individual projects. During my time I improved my communication, project management and collaborations skills. For technical skills I learned how to code in a couple languages like C# or C++ and improved upon my existing skills in blueprinting. This was done in various engine software's. Using the skills I learned I was able to create multiple projects.

City of Wolverhampton College, Wolverhampton 2021 - 2023
UAL Level 3 Diploma and Extended Diploma in Creative Media Production and Technology (Games Design)

In college, I studied game design and gained experience working and communicating within a team. From this, I learned how to manage my time and tasks effectively using various software's such as Google Docs, Google Sheets, and Trello. I also gained knowledge on game design, art, sound, and programming.

WORK EXPERIENCE

A-Team Auto Repair Centre Service Garage, Wolverhampton 2020
Assistant

I worked for a week in vehicle repair during my final year of secondary school.

- Completed given tasks on time.
- Gained knowledge of how businesses run their operation.
- Ensured I was punctual and arrived on time

Chantry Academy, Ipswich (2016 - 2019) 2016 - 2019
Librarian

During my time in secondary school I volunteered to be a librarian.

- Was tasked to manage books in the library.
- Had to use their own software to scan a book in or out.
